

8 steps to Earthquake Safety

PREPARE

01 I secure my space
by identifying hazards and securing moveable items.

02 I organise Disaster Supplies
in convenient locations

03 I learn how to offer First Aid
I am learning to use fire extinguisher.

04 I plan to be safe
by creating a disaster plan and deciding how you will communicate in an emergency.

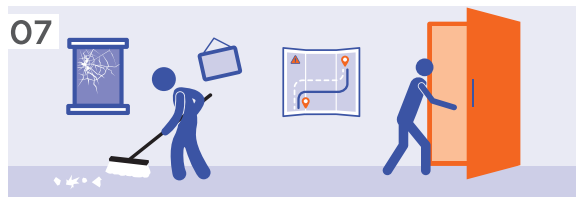

05 I minimise financial hardship
by organizing important documents, strengthening your property and considering insurance.

SURVIVE

06 I drop, cover, and hold on
when the earth shakes.

07 I improve safety
after earthquakes by evacuating if necessary, helping the injured, and preventing further damage.

RECOVER

08 I reconnect and I restore
I restore daily life by reconnecting with others, repairing damage, and rebuilding the community.
